2015-08-27 CGSync Meeting notes

Date

📅 27 Aug 2015 - last meeting

Attendees

- Thomas Cherry
- Christopher Gokey
- Chris Durbin

Questions

- Christopher Gokey has a question on pulling short names vs long names for projects
  - GCMD currently caching long names but wants the CMR to host it, durbin said maybe we should continue to cache because CMR can't get to it before MVP.
- instruments are starting next week (CMR)
- UUID searches for platforms in CMR, can add for other fields
- Big talk on keyword case, decision is that numbers must be correct, we don't want to look in two branches to find values. Use case insensitive compare to generate correct facet numbers, coords will fix the display value, software may do: use first record case, use last record case, or upper case everything. Not our problem, fix your data, we will focus on correct numbers.
- changes for "not provided" support
- highlighting changes
- GCMD should trim snippets by removing symbols at the start of each one

Discussion Items

Time	Item	Who	Notes
15min		GCMD	- Demo - API Source Name - Titles.do - Platforms - with Long Names - Projects - still working out the kinks - Auto Complete in freetext - Keywords.do - no styles yet
15min		CMR	- Demo - Hierarchical Platform Facets - Searching by Platform subfields - Case-insensitive Facets

Action items

- ☐ Durbin to create a ticket to add project long names.
- ☐ Durbin to create a ticket to add UUID searching for other fields

Connection Info

1. Please join the meeting at: https://global.gotomeeting.com/join/316133829
2. Use your microphone and speakers (VoIP) - a headset is recommended. Or, call in using your telephone.

Dial +1 (312) 757-3121
Access Code: 316-133-829
Audio PIN: Shown after joining the meeting
Meeting ID: 316-133-829
